

PREPARATION

SAFETY WARNINGS

This symbol indicates that dangerous voltage which can cause electric shock is present inside this unit.

This symbol alerts you to important operating and maintenance instructions accompanying the unit.

WARNING: To reduce the risk of fire or electric shock, do not expose this appliance to rain or moisture.

PRECAUTIONS

Ensure that the AC power supply in your house complies with the identification sticker located on the back of your player.

Install your player horizontally, on a suitable base (furniture), with enough space around it for ventilation (7.5~10cm). Make sure the ventilation slots are not covered.

Do not stack anything on top of the player.

Do not place the player on amplifiers or other equipment which may become hot.

This player is not designed for continuous use. In order to disconnect the player completely from the power supply, remove the main plug from the wall outlet, especially when left unused for a long period of time.

During thunderstorms, disconnect AC main plug from the wall outlet. Voltage peaks due to lightning could damage the unit.

Do not expose the unit to direct sunlight or other heat sources. This could lead to overheating and malfunction of the unit.

Protect the player from moisture (e.g. vases), and excess heat (e.g. fire place) or equipment creating strong magnetic or electric fields (e.g. speakers...).

Disconnect the power cable from the AC supply if the player malfunctions.

This player is not intended for industrial use. Use of this product is for personal use only.

Condensation may occur if the player or disc have been stored in cold temperatures.

If transporting the player during the winter, wait approximately 2 hours until the unit has reached room temperature before using.

The battery used with this product contain chemicals that are harmful to the environment. Do not dispose of batteries in the general household trash.

Handling the Unit

When setting up the unit, the picture and sound of a nearby TV, or radio may be distorted during playback. In this case, position the unit away from the TV, or radio, or turn off the unit.

Cleaning the unit

To clean the cabinet, use a soft, dry cloth. If the surfaces are extremely dirty, use a soft cloth lightly moistened with a mild detergent solution. Do not use strong solvents such as alcohol, benzene, or thinner, as these might damage the surface of the unit.

TROUBLE SHOOTING

No power	Insert the AC power plug securely into the power outlet and press “Power” button on the front panel.
Unable to recognize USB or CARD device	In case, “NO DISC” message appears on the display, enter SETUP → SYSTEM/INITIALIZE/FACTORY DEFAULT SET and all settings will return to the default values. Pull out USB or CARD device and re-connect to the player correctly. Check if the CARD reader cable is plugged in correctly. Please reboot the system.
Play fails to start even when PLAY is pressed. Play starts but then stops immediately	Condensation has formed: wait about 1 to 2 hours to allow the player to dry out. Ensure that CARD or USB were installed correctly.
No Picture	Ensure that the equipment is connected properly. Ensure that the input setting for the TV is “Video”
No sound Distorted sound	Ensure that the equipment is connected properly. Ensure that the input setting for TV and Amplifier are correct. Ensure that MIDI Karaoke Sound comes out from Audio L/R port only.
Picture is distorted during fast forward or fast reverse.	The picture will be somewhat distorted at times: this is normal. Check the video format if it was a supported format on this unit
No 4:3(16:9) picture	Choose the correct setup “TV” item which matches the TV set used.
No operations can be performed with the remote control.	Check batteries are installed with the correct polarities (+and-). Batteries are depleted: replace them with new ones. Point the remote control unit at the remote control sensor and operate. Operate the remote control unit at a distance of not more than 7 meters (23feet) from the remote control sensor. Remove obstacles between the remote control unit and remote control sensor.
No key operation (by the unit and/or the remote control) is effective.	Please reboot the system. Please contact to the service center
Microphone does not work.	Check if the microphone is switched ON. Check if the Microphone volume of the Player and or Amplifier is fixed at the minimum level and adjust it. Check if the microphone is detective. If so, exchange it.
When using the microphone, the speaker makes a noise.	Keep the microphone far from the speaker. Do not place it toward the speaker either.
Scoring has no function	Check the Microphone Input Signal Cable was connected between the Unit and Amplifier correctly Enter KARAOKE SETUP → SCORE CHECK → select MIC INPUT. Please sing each song with enough voice output level for over 1 minute at least.
On-Screen Song List not displayed or only partially displayed on the TV Screen.	Select the appropriate TV Screen type by consulting the operating manual for the TV.
